

## MATHS WORKSHEETS- AREA OF THE SHADED REGION IN CONCENTRIC CIRCLE- ANNULUS.

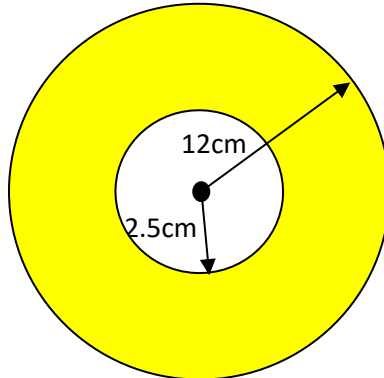

Find the area of the shaded region correct to 2 decimal places.

1.

Answer:

2.

Answer:

3.

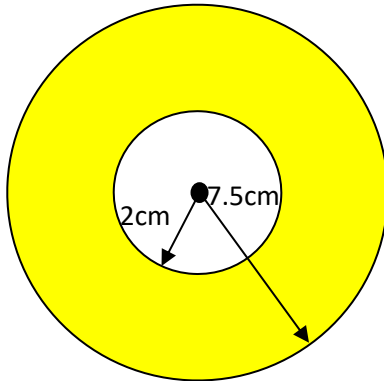

Answer:

4.

Answer:

5.

Answer:

6.

Answer:

7.

Answer:

8.

Answer:

9.

Answer:

## MATHS WORKSHEETS- AREA OF THE SHADED REGION IN CONCENTRIC CIRCLE- ANNULUS.

### Answer Key:

Area of the shaded region = Area of outer circle - Area of inner circle

$$\begin{aligned} &= \pi R^2 - \pi r^2 \\ &= \pi (R^2 - r^2) \\ &= 3.14(R^2 - r^2) \text{ sq. units} \end{aligned}$$
