

MATHS WORKSHEETS- GEOMETRY- NOTES- PARALLEL LINES & TRANSVERSAL

1) Parallel lines: Do not intersect each other.

2) Transversals: Line that intersects two lines at distinct points is called as transversal.

- Line l is called as transversal.
- Transversal line must cross two or more lines at separate points.

3) Parallel lines cut by transversal:

4) Corresponding angles: Corresponding angles are equal

MATHS WORKSHEETS- GEOMETRY- NOTES- PARALLEL LINES & TRANSVERSAL

5) Alternate Interior angles: Alternate interior angles are equal

$\angle 4$ and $\angle 5$
 $\angle 3$ and $\angle 6$

6) Alternate exterior angles: Alternate exterior angles are equal

$\angle 1$ and $\angle 7$
 $\angle 2$ and $\angle 8$

7) Co-interior angles: (Consecutive interior angles or allied angles)

Co interior angles add up to 180°

$\angle 3$ and $\angle 5$
 $\angle 4$ and $\angle 6$

8) Vertically opposite angles: (Vertical angles)

Vertical angles are congruent

$\angle 1$ and $\angle 3$
 $\angle 2$ and $\angle 4$
 $\angle 7$ and $\angle 6$
 $\angle 8$ and $\angle 5$
