## MATHS WORKSHEETS- MEASUREMENTS- CONVERSION OF UNITS OF LENGTH- MM, KM

Complete the following.

1          3 km =                  m

2          5.6 km =                  m

3          7.3 km =                  m

4          6 km =                      m

5          2.8 km =                  m

6          34 km =                    m

7          2.96 km =                  m

8          3.876 km =                  m

9          32 km =                    m

10        5000 m =                    km

11        4300 m =                    km

12        3600 m =                    km

13        2370 m =                    km

14        3000 m =                    km

15        12000 m =                   km

16        7500 m =                    km

17        8000 m =                    km

18        13000 m =                   km

19        9000 m =                    km

20        1000 m =                    km

21          1 m =                      mm

22          5.5 m =                    mm

23          10 m =                    mm

24          17.5 m =                   mm

25          14 m =                    mm

26          6 m =                      mm

27          8 m =                      mm

28          9.2 m =                    mm

29          34 m =                    mm

30          56 m =                    mm

31        4563 mm =                  m

32        3872 mm =                  m

33        1314 mm =                  m

34        53562 mm =                 m

35        4245 mm =                  m

36        325 mm =                  m

37        9756 mm =                 m

38        865 mm =                  m

39        4876 mm =                 m

40        4219 mm =                 m

## MATHS WORKSHEETS- MEASUREMENTS- CONVERSION OF UNITS OF LENGTH- MM, KM

### Answer Key:

1 km = 1000 m

1 m = 1000 mm, 1 m = 100 cm

1 cm = 10 mm, 10 cm = 100 mm

1        3000    m

2        5600    m

3        7300    m

4        6000    m

5        2800    m

6        34000   m

7        2960    m

8        3876    m

9        32000   m

10       5        km

11       4.3     km

12       3.6     km

13       2.37    km

14       3        km

15       12      km

16       7.5     km

17       8        km

18       13      km

19       9        km

20       1        km

21       1000    mm

22       5500    mm

23       10000   mm

24       17500   mm

25       14000   mm

26       6000    mm

27       8000    mm

28       9200    mm

29       34000   mm

30       56000   mm

31       4.563   m

32       3.872   m

33       1.314   m

34       53.562   m

35       4.245   m

36       0.325   m

37       9.756   m

38       0.865   m

39       4.876   m

40       4.219   m
